FINANCIAL REVIEW GUIDELINES

Version: 1.0

1. Income

Declared income should be compared with available financial evidence.

2. Premium

Annual premium may be compared with declared annual income as part of financial analysis.

3. Sum Assured

Proposed sum assured may be compared with available financial information.

4. Bank Account

Account opening date can be considered as one factor in financial analysis.

5. Important

The system must not invent financial information.
Company-approved thresholds must be used for actual underwriting decisions.
