KYC VERIFICATION GUIDELINES

Version: 1.0

1. PAN Verification

PAN information should be checked for valid format and consistency with customer details.

2. Aadhaar Verification

Aadhaar information should be treated as verified only when an approved verification mechanism returns a successful result.

3. Name Consistency

Material differences between identity documents should be referred for review.

4. Missing Evidence

Missing identity evidence should not be guessed. The case should remain unresolved until evidence is available.
